EXPERIENCE

Whole Life Church, San Jose, CA — *Web Developer*

May 2021 - PRESENT

- Volunteering my time to design and develop a full stock website for a local Church.
- Created a design and front-end development to allow the church to have something available for them to use right away.
- Working on the back-end of the website to allow the end-user to sign in and add their prayer request.

SJECCD Citizens' Bond Oversight Committee, San Jose, CA — *Citizen at Large*

June 2016 - Present

- Assisting with making sure that the Board of Trustees utilizes the measures passed by the community responsibly and legally.
- Monitoring and informing the public of the district's expenditure reports to ensure all bond money is being allocated properly.
- Currently representing as chair for a 2nd term and was vice-chair for 2 terms all from a majority vote of the committee members.

PROJECTS

Texas Hold'em — Class *Final Project*

Collaborated with a team to allow 2-4 players to play poker. Operated with C language to allow users to play with each other, remember the winnings of each player, and score the games accordingly.

Amazon Product Review — Class *Final Project*

Collaborated with a team to analyze 94.2 GB of raw data and deduplicated to compare to UCSD's results. Utilized multiple databases to hold 'sha254' to review comments and reduce file size. Operated on Microsoft Remote Desktop to maximize time by nearly 80% with team efficiency; used JSON, MySQLdb, and StringIO libraries in Python.
